## WORK EXPERIENCE

PKFokam Research Center                                                  Tradex Emana, Yaoundé
*ReactJS Developer*                                                       *Sep 2024 - Present*

- Developed a web application utilizing ReactJS, TailwindCSS, TypeScript, and ShadcnUI to create a visually appealing and user-friendly interface for increased user engagement.
- Implemented state management with Redux.js and utilized Axios for managing requests, resulting in a seamless and efficient app experience with minimal delays.
- Led a team of developers using Microsoft Teams to successfully collaborate on the project, resulting in the completion of the project ahead of schedule and under budget.

Team48                                                                  Tradex Emana, Yaoundé
*Frontend Web Developer*                                                  *Nov 2023 - May 2024*

- Developed and optimized landing page websites using HTML5, CSS3, and Javascript, resulting in a 30% increase in site traffic and a 20% decrease in bounce rate.
- Implemented icons libraries such as boxicons and fontawesome to enhance the user experience, leading to a 15% increase in click-through rates on landing pages.
- Managed a team of developers using Microsoft Teams, organizing regular communication meetings via Google Meet to ensure project deadlines were met efficiently.

Freelance                                                               Tradex Emana, Yaoundé
*NextJS Developer*                                                        *May 2024 - Nov 2024*

- Implemented API consumption best practices for routing, caching, and data fetching in NextJS application, resulting in a 40% decrease in page load times.
- Developed and implemented SSR (Server-Side Rendering) techniques in NextJS application, leading to a 50% increase in SEO performance metrics.
- Utilized best architecture practices to optimize the source app router functionality, resulting in a 30% improvement in overall application performance.

## PROJECT EXPERIENCE

**MyFalir**                                                             Lille Saint-Martin-la-Pallu
*Webinflu*                                                                *Jul 2024 - Nov 2024*
